## Webinar: Coaching in Early Child Development & Intervention

This interactive webinar will aim to answer the following questions about coaching in the early child development and intervention sector:

1. *What are some key principles of coaching?*
2. *What does current evidence tell us about coaching?*
3. *What are some key strategies for coaching in-person and when using technology?*

**When: 6 June 2024 ~ 9.30-11am PST**

**Zoom: <https://uvic.zoom.us/j/82171999605?from=addon>**

### Presenter:

**Dr. Karen Hurtubise** is a pediatric physiotherapist with 30 years of experience. Her research includes designing, implementing, and evaluating therapeutic approaches and health service delivery models, including with youth with chronic conditions and their families. Thanks to a CIHR award, Karen is currently completing a postdoctoral fellowship at the CanChild Centre for Childhood Research.

**For more information contact: [tappingintotech@uvic.ca](mailto:tappingintotech@uvic.ca)**

This webinar is hosted by Dr. Alison Gerlach at the University of Victoria and Jason Gordon with the BC Association for Child Development and Intervention who co-lead the Community Voices on Tapping into Tech research project. A recording of the webinar will be available on the research website:
